

THREE LITTLE PIGS CRAFTS

from
"In the Bag Kids' Crafts"

3 LITTLE PIGS

MATERIALS LIST

- 12 Large popsicle sticks
- Scissors
- Elmer's glue
- Glue stick
- Construction paper
- Pink paint
- Newspaper
- Pompoms
- Clothespin
- Googly eyes
- Markers
- Pig craft templates

Step 1: Make a Triangle

- Glue together 3 large popsicle sticks into a triangle frame shape using Elmer's glue
- Allow the glue to dry thoroughly
- Repeat this process 3 times for the three little pigs (and one more for the wolf too.)

*You may want to prepare several triangle frames at once so that they are ready for other projects. Just keep them in your craft bag.

Step 2: Paint

- Pinch the pompom with the clothespin to form a "paint brush".
- Squeeze a little pink paint onto the newspaper and paint the triangle frame.
- Set aside and allow the paint to dry while you move on to the next step.

**Since my paper did not match the paint that I had on hand, I also painted a piece of construction paper so that it would match the frame. This, of course, is totally optional. If you choose to do this, just be sure to use a very thin coat of paint so that the paper does not warp too much, and the paint dries very quickly.

Step 3: Cut Out the Pieces

- Print the craft template(s).
- Use the printable craft template to cut out all of the pieces out for your three little pigs craft. (The hats and accessories are optional.)
- Also cut a small strip of paper, smaller than the width of the nose and about 2 inches long for each of the pigs.
- Fold each into an accordion.
- Add details, like the nostrils and center of the ears, to the pieces using your markers.

Step 4: Put It Together

- From the three little pigs craft template, cut out the triangle.
- Once the paint has dried, glue the paper triangle to the back of the popsicle stick frame.

Step 5: Add the Parts

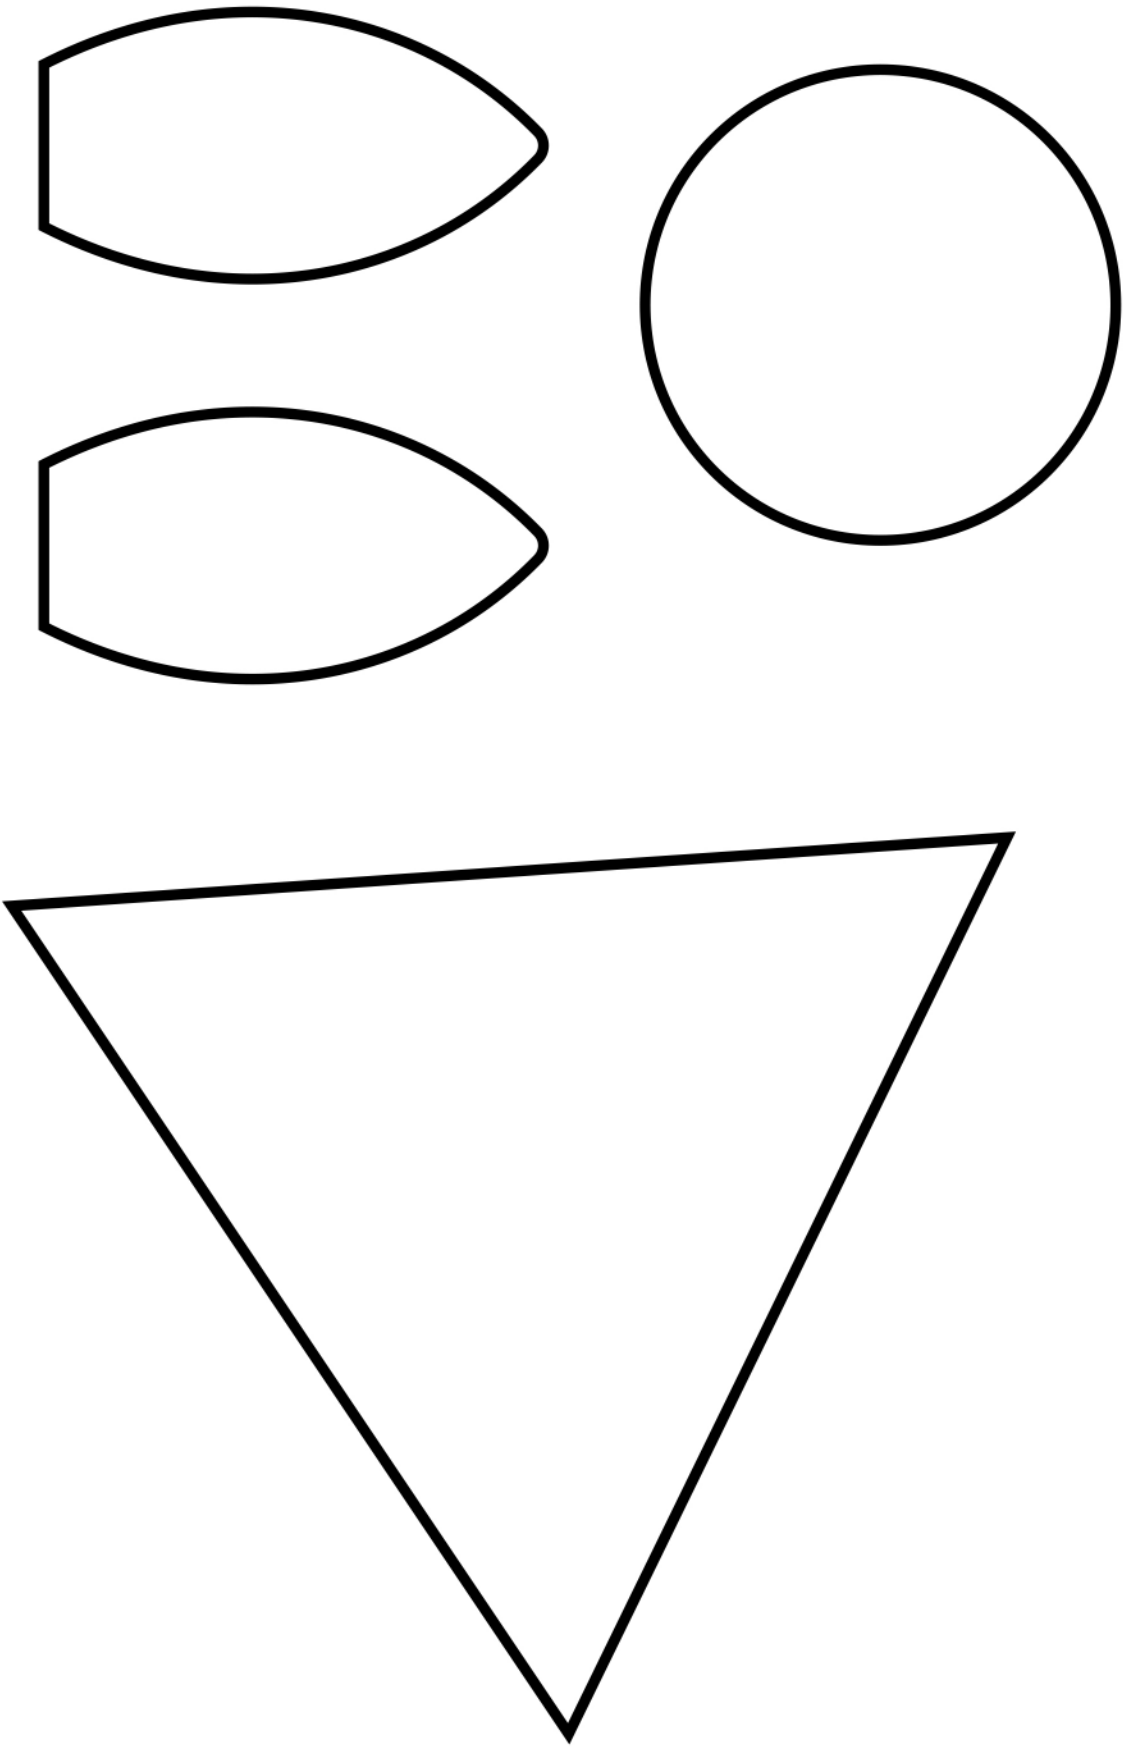

- Glue the ears into place. We gave ours a little fold in the center so that they would appear more life-like.
- Then glue the pig nose to the end of the folded accordion paper and glue that into the center of the triangle
- Place the googly eyes
- Use your markers to add any other details you would like.

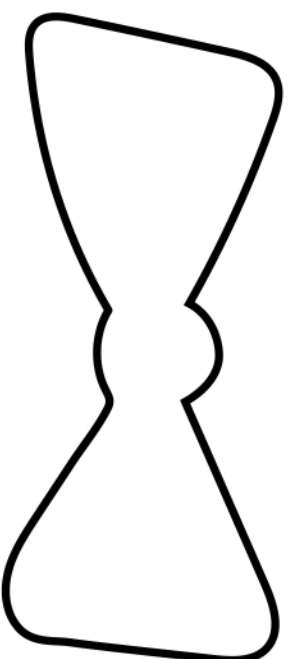

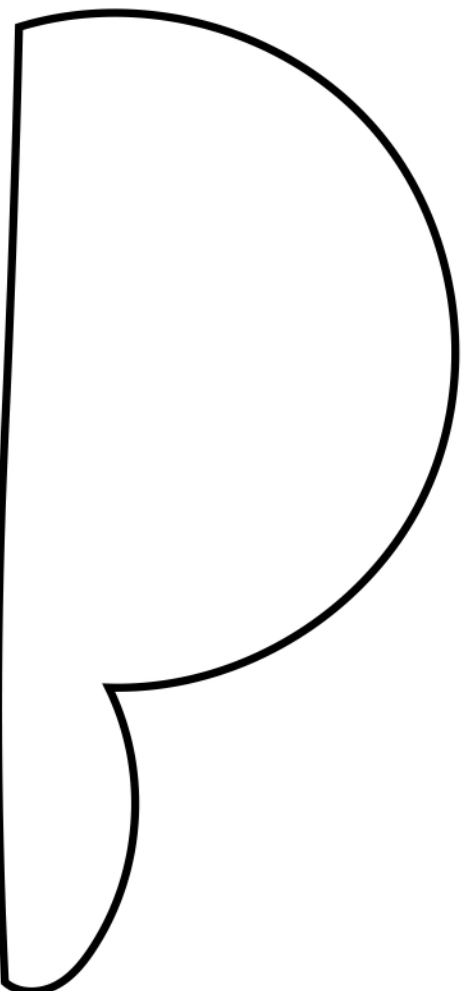

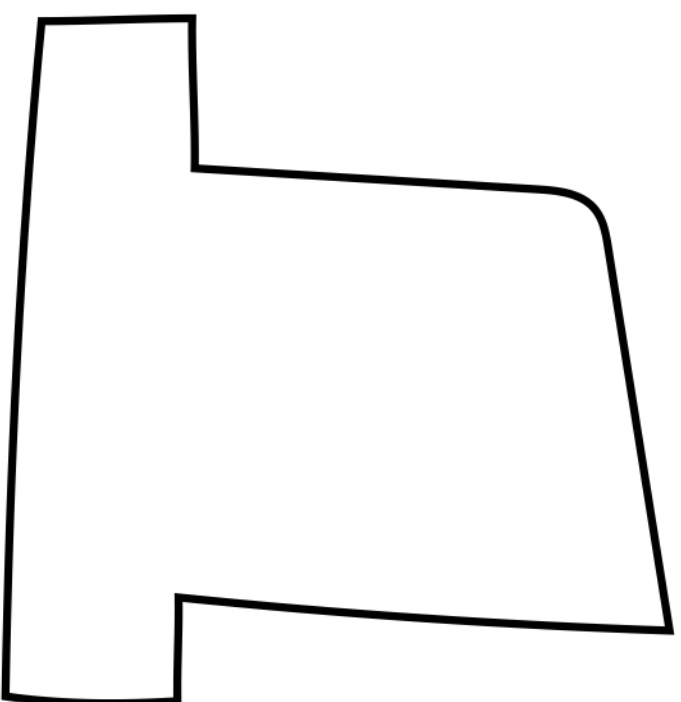

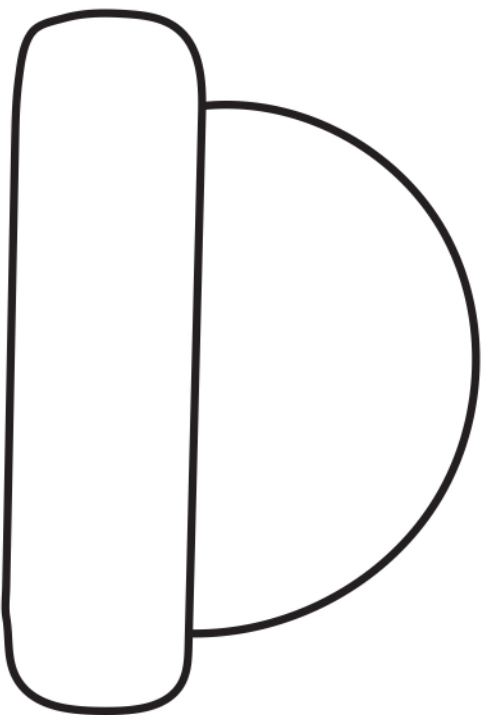

Step 6: Personalize the Pigs

- Using the accessories page of the template, cut out the hats and other items for your three little pigs.
- Decorate them with markers and glue them in place.

PIG

LITTLE PIG ACCESSORIES

BIG BAD WOLF

MATERIALS LIST

- 3 Large popsicle sticks
- Elmer's glue
- Glue stick
- Scissors
- Googly eyes
- Brown paint
- Newspaper
- Pompoms
- Clothespin
- Black, white and brown construction paper
- Brown tissue paper squares
- Markers
- Wolf craft template

Step 1: Make the Triangle

- Use the Elmer's glue to attach 3 large popsicle sticks, forming a triangle frame
- Set the triangle to the side and allow the glue to dry thoroughly

*This is a step that you may want to do the day before and let them sit overnight so that the glue dries completely. While you are at it, make lots of triangle frames so that you are ready to make as many crafts as you want! (And, believe me, you are going to want to make them all and then some!)

Step 2: Paint the Frame

- Place the triangle frame on the newspaper and squeeze out some brown paint
- Pinch the pompom with the clothespin to form a "paint brush"
- Paint the triangle frame brown and set it aside to allow the paint to dry.

Step 3: Use the Template

- Print the Big Bad Wolf template.
- Trace each part onto the colored construction paper. Use the photo as a guide for what colors to use.

Step 4: Put It Together

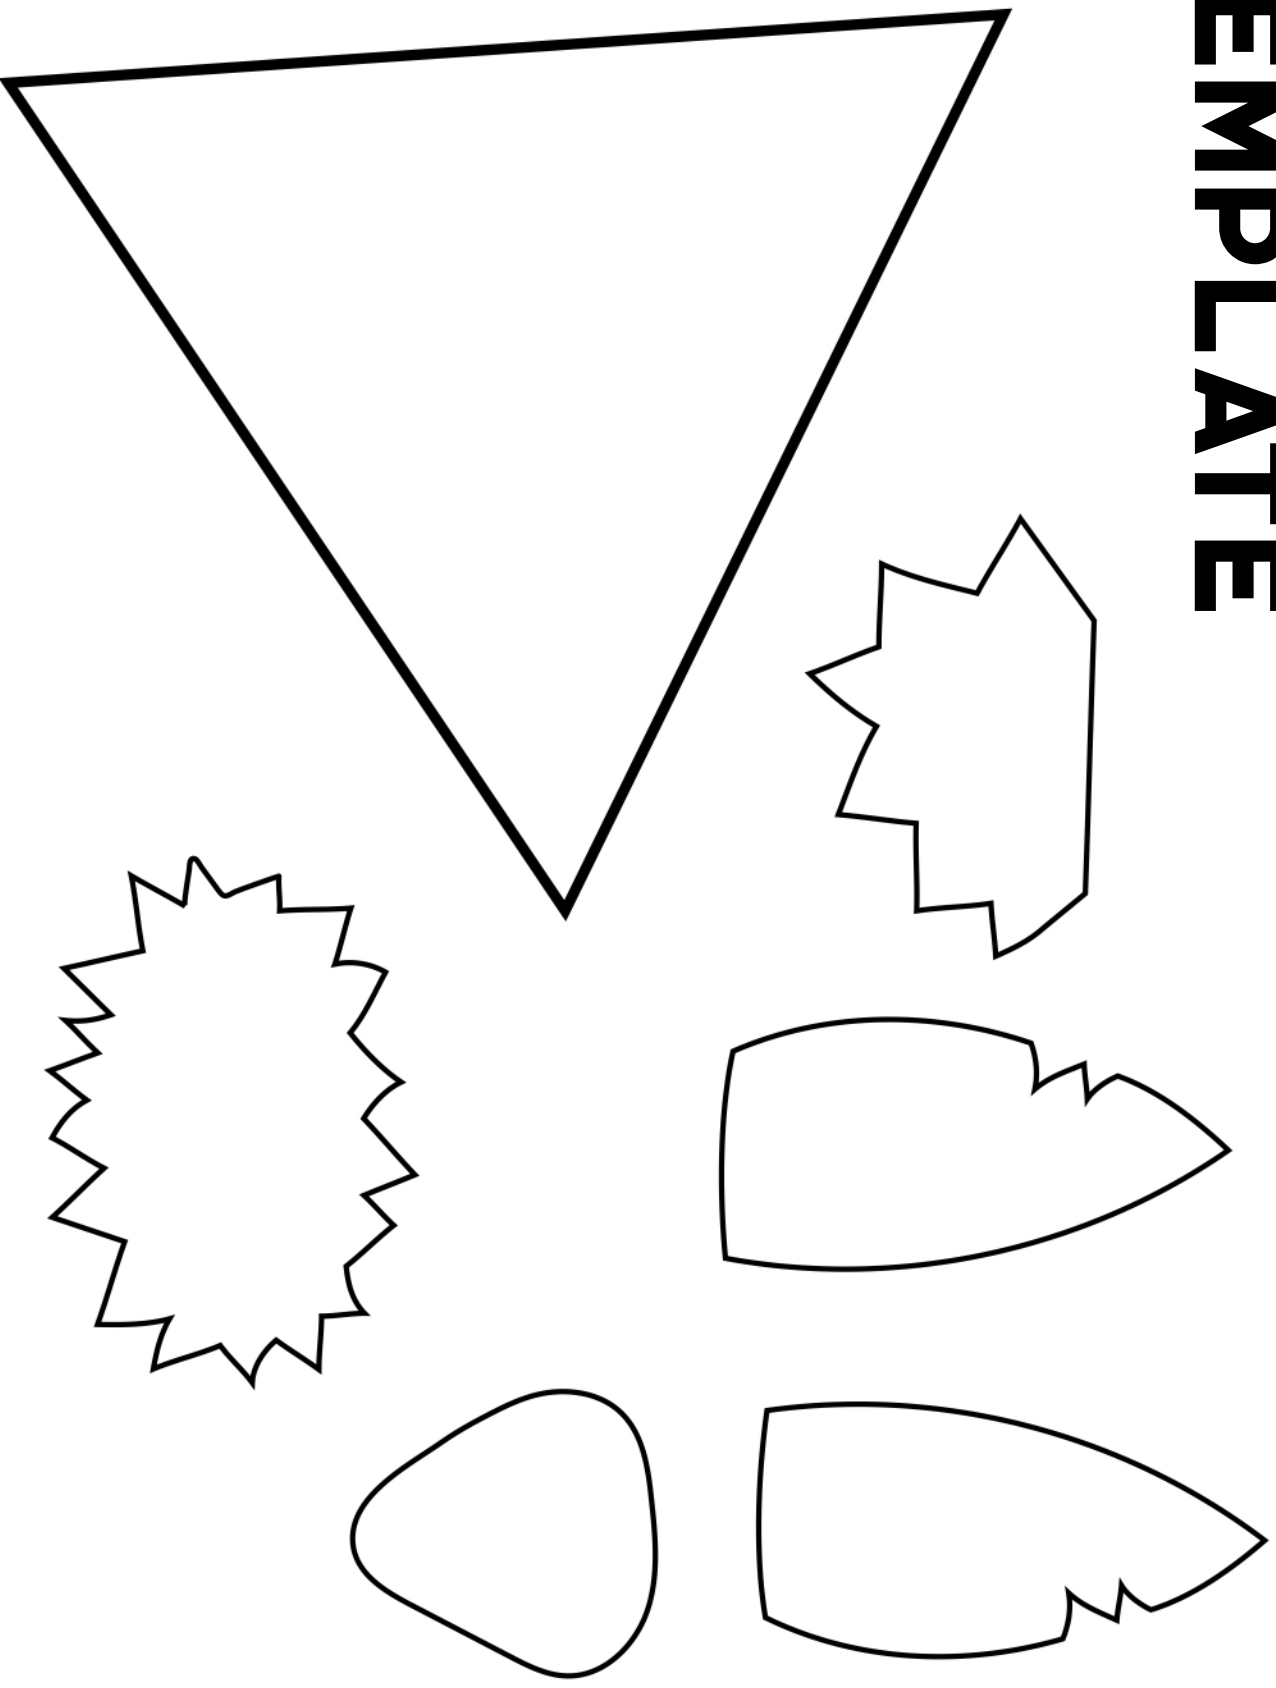

- Use the glue stick to adhere the brown paper triangle onto the back of the popsicle stick frame.
- Then add the other parts of your Big Bad Wolf craft to the triangle.
- Finally, use the glue stick to attach 2-3 squares of brown tissue paper onto the sides of your wolf's face.
- Snip at the brown tissue paper so that it is in a zig zag and fringed.

Step 5: Add the Details

- First, put the Wolf's eyes in place.
- Then draw on the rest of his face.
- Use your markers to add some highlights and details to your Big Bad Wolf, like fuzzy eyebrows and some "fuzz" on his ears.
