

# ALLIGATOR NAME CRAFT

*"Play is our brain's  
favorite way of  
learning."*

Diane Ackerman

## MATERIALS

- Green construction paper
- Scissors
- Glue stick
- Markers
- Green tissue paper squares
- Googly eyes
- Alligator craft template

## Step 1

- Print the alligator craft template.
- Use it to cut out all of the parts of your alligator craft.

\*Be sure to make at least enough rectangles for each letter of your name, plus extra for short names.

## Step 2

- In the center of each of the rectangles, write each letter of your first name using a dark marker.

\*I recommend using capital letters when first learning name writing and recognition.

## Step 3

- Assemble your alligator using a glue stick.
- Start with the head and then add each letter of your name.
- Then end by attaching the tail.

## Step 4

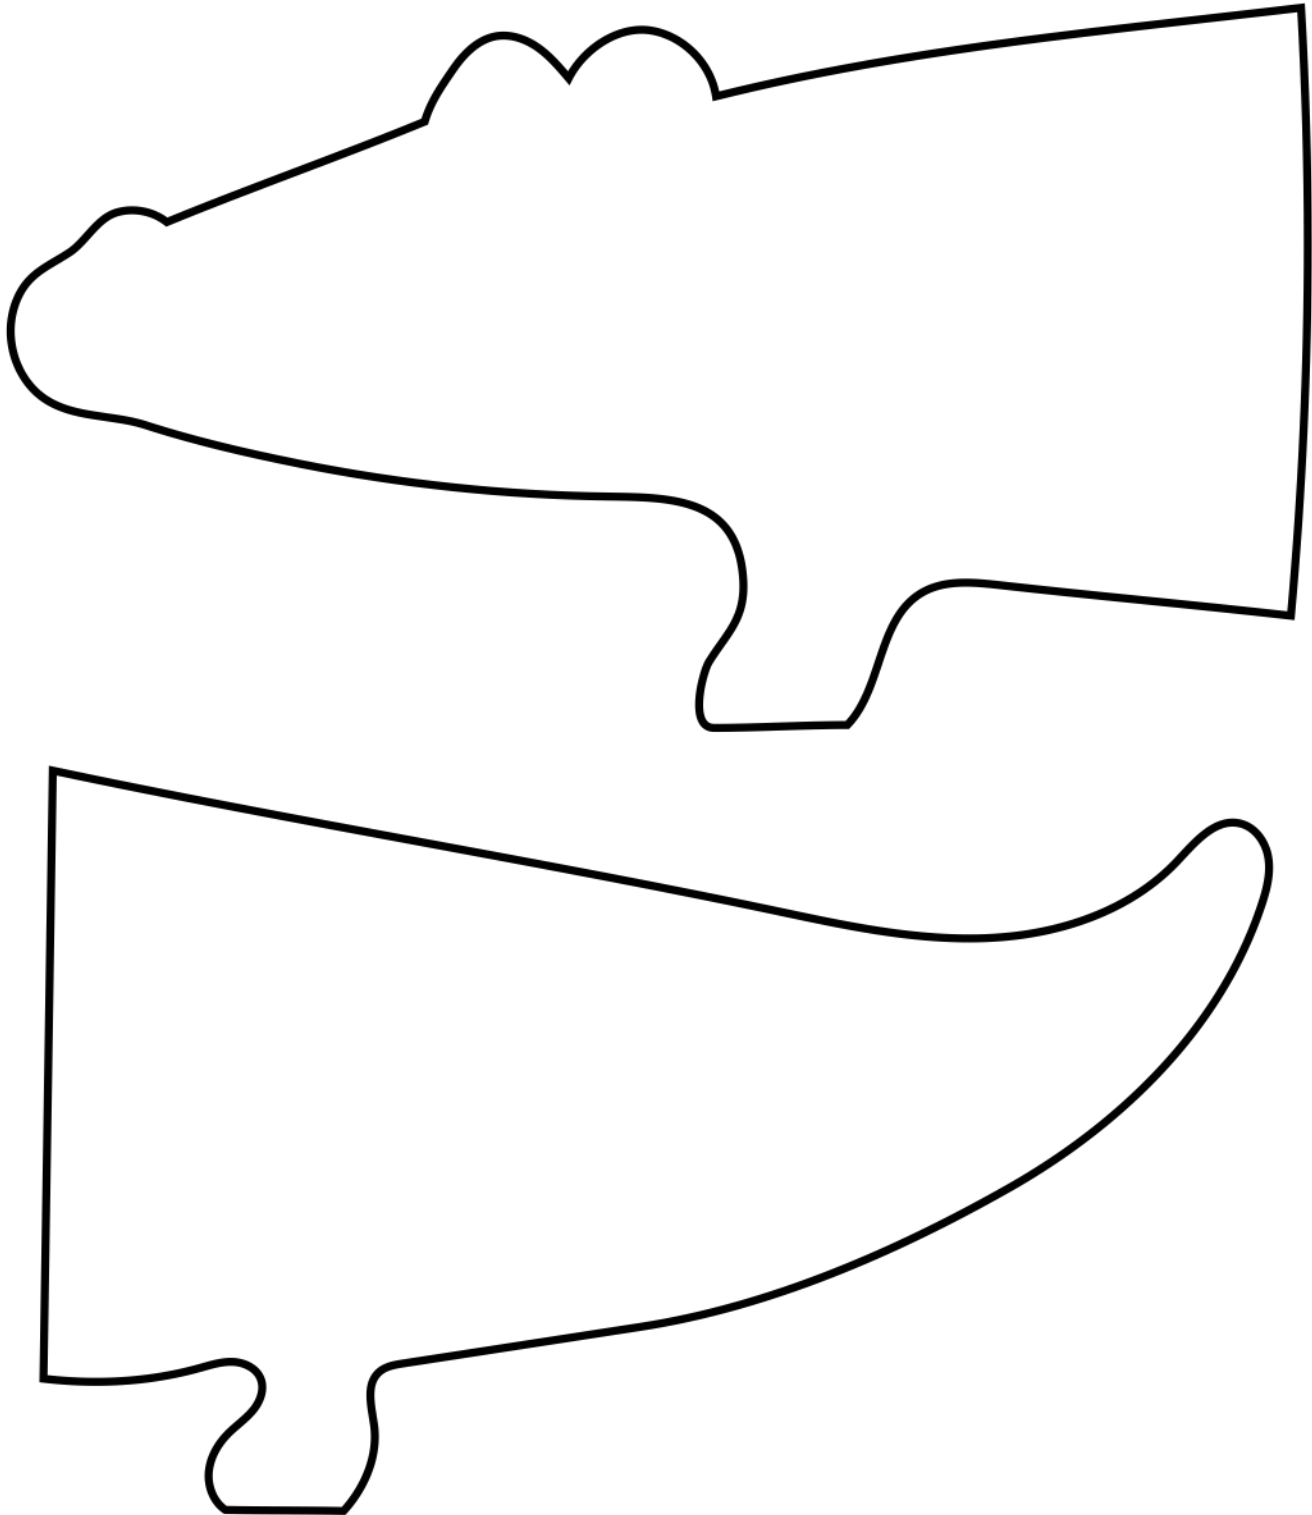

- Add details to your alligator using markers.
- Apply the googly eyes.

## Step 5

- As a finishing touch, glue green tissue paper squares to the back of your alligator on top, with corners of the pieces poking up like scales.
